**A Sociology of Family Life | Wiley**  
Sociology of the family is a subfield of sociology in which researchers examine the family as one of several key social institutions and units of socialization. The sociology of the family is a common component of introductory and pre-university academic curricula because the topic makes for a familiar and illustrative example of patterned social relations and dynamics.

**The Sociology of the Family Unit - ThoughtCo**  
For example, most sociology and marriage-and-family textbooks during the 1950s maintained that the male breadwinner-female homemaker nuclear family was the best arrangement for children, as it provided for a family's economic and child-rearing needs.

**15.2 Sociological Perspectives on the Family - Sociology**  
The Sociology of Personal life is strongly influenced by Interactionist ideas and contrasts with structural theories. Sociologists from this perspective believe that in order to understand families, we must start from the point of view of the individuals concerned and the meanings they give to their relationships.'

**The Personal Life Perspective on the Family - ReviseSociology**  
Family theory consists of sets of propositions that attempt to explain some aspect of family life. Theorizing involves making general statements about some phenomenon, and an important characteristic of family theory, therefore, is that it involves a degree of abstraction from reality.
