Bioinformatics Programming Using Python: Model, Mitchell L ...

>>> 3 > 12 % 5 True You could also use a footnote saying "see page 16, Compound Expressions" for a treatment of precedence. Alternately, you can refer back to the example on p. 8 from p. 16 and show how changing the "13" to a different value changes the answer and exposes the precedence rule. Note from the Author or Editor:

Errata | O'Reilly Media Bioinformatics Programming Using ...

Powerful, flexible, and easy to use, Python is an ideal language for building software tools and applications for life science research and development.
