Computer Networking A Top Down

We have also been active researchers in computer networking during this time. (In fact, Jim and Keith first met each other as master's students in a computer networking course taught by Mischa Schwartz in 1979 at Columbia University.) We think all this gives us a good perspective on Teaching networking, and an appreciation for high-quality ...

Computer Networking: a Top Down Approach

Possibly the best book on computer networking I've ever got my hands on. The top-down approach in addition to the great examples and graphics make things so much easier to understand. Also the fact that the authors justify most of the decisions taken in building the Internet really makes you feel a part of the process.

Computer Networking: A Top-Down Approach, 6Th Edn: Ross ...

&>Computer Networking continues with an early emphasis on application-layer paradigms and application programming interfaces (the top layer), encouraging a hands-on experience with protocols and networking concepts, before working down the protocol stack to more abstract layers.

Kurose & Ross, Computer Networking: A Top-Down Approach ...

Description. Revised to reflect the rapid changes in the field of networking, Computer Networking provides a top-down approach to this study by beginning with applications-level protocols and then working down the protocol stack. An early emphasis is placed on application-layer paradigms and application programming interfaces to allow readers to get their "hands-dirty" with protocols and ...
