Importance of Ethics in Professional Life - Regardless of profession or the field of work one belongs to, ethics is an important part of work. The success or the expected results depend on how the workers deal with the situations. Whether ethically or unethically. If they are dealt ethically, the chances are positive for growth and development.

Online therapy, also known as teletherapy, virtual therapy, or internet/online counseling, among other names, is rapidly expanding. Because online therapy involves patient-therapist communication via computers or mobile devices rather than through face-to-face interactions, security issues come into play that you otherwise wouldn't worry about.

Online Therapy Security, Ethics, and Legal Issues

Teleological ethics are based on actions that are determined by consequences, whereas deontological ethics are based on actions that are moral obligations and responsibility to do the right thing. (Northouse, pg 426) Since morals and virtues are not innate and are created by society, people can learn and be taught to be morally responsible human beings.
