Reference Item "1" Thermostat Housing - Mercruiser utilized a full flow thermostat housing that direct flow through the heat exchanger or through the bypass circuit at all times. This is a key feature of Mercruiser Cooling System in that regardless of the thermostat position, the engine always experiences 100% coolant flow.

I have a 2006 Sea Ray 27 Sundeck with a 496 350 hp Mercruiser. I'm trying to determine if I have a blockage in my cooling lines to the engine. I've been told the temp is an indicator because it should usually run at 160. Also, the water psi is an indicator but I'm having a hard time determining what the pressure should be since I can not find a ...

## **Genuine Mercury & Mercruiser parts**

The Mercruiser has inspection ports on the front of the exhaust manifolds. Remove the ports and visually inspect them for deposits that would restrict the water flow. Remove the manifolds if they appear clogged. Use a metal rod to knock rust and deposits loose from the interior of the manifolds and flush with water.
