I have a 2002 PT Cruiser. It has ~138,000 miles on it (I'm not sure of the exact number at the moment because I don't have it with me). It's a manual, and I just had a brand new clutch put in about a month ago. Over the last couple years, the engine mounts, oil pump, blower motor, one of the tire rods, and the bushings have all been replaced.
