## **Salinity And Drainage In San**

If the salinity concentration in the soil is high enough, the plant will wilt and die, regardless of the amount of water applied. Figure 1 shows how the various salt concentrations affect the movement of water from the soil to plants. Salt buildup. Salinity is of greatest concern in soils that are: Irrigated with water high in salts;

### **Managing Soil Salinity - How does salinity affect soil?**

PREFACE. Water Quality for Agriculture was first published in 1976 as Irrigation and Drainage Paper 29. Although many of the basic concepts of salinity control and dealing with poor quality water remain the same, new data and experience have prompted us to revise the 1976 paper in order to keep the user up-to-date.
