Modern Monetary Theory or Modern Money Theory (MMT) is a heterodox macroeconomic theory that describes currency as a public monopoly and unemployment as evidence that a currency monopolist is overly restricting the supply of the financial assets needed to pay taxes and satisfy savings desires.. MMT is an alternative to mainstream macroeconomic theory.It has been criticized by well known ...

Modern Monetary Theory - Wikipedia

Atomism - Atomism - Modern atomic theory: With the development of a scientific atomic theory, the general philosophical problems gradually disappeared into the background. All attention is focused on the explanation of concrete phenomena. The properties of the atoms are determined in direct relationship with the phenomena to be explained. For this reason the chemical atomic theory of the 19th ...

Cell theory - Wikipedia

Modern cell theory has two basic tenets: All cells only come from other cells (the principle of biogenesis). Cells are the fundamental units of organisms. Today, these tenets are fundamental to our understanding of life on earth. However, modern cell theory grew out of the collective work of many scientists.

Modern Theory of Evolution. There is a modern theory of evolution. There are some things we have learned over the last 150 years since Charles Darwin first proposed his theory of "descent with modification." Darwin's theory was amazingly accurate considering the state of scientific knowledge in 1859.
