Tracker CCP V12 SP3 PC Software And Panel Upgrade Procedure

I was sent out to a building with a older Trane Tracker system. In my area there isn't alot of this out there. So I haven't really got a chance to mess with this stuff yet. I am wanting to get some information on this system. I see that you can use hyperterminal to connect to it. I was wondering how to set up the hyperterminal? Similar to Tracer 100?
